

Pre-sourced Manufacturing & Finishing Processes from ASD Sourcing

Industrial related Manufacturing & Finishing Processes

1. Metal fabrications (mild steel, stainless steel and aluminium)
2. Die casting – pressure
3. Die casting – pour
4. Investment casting
5. Cable assemblies
6. PCB's
7. Complete electronic assemblies
8. Sheet metal
9. Plastic extrusion (single and dual)
10. Injection moulding
11. Aluminium extrusion
12. Recycled plastic moulding
13. Pressing / punching
14. Tube manipulation
15. Ring rolling
16. Acrylic fabrications
17. Lock production
18. Spring production
19. Bearing production
20. Solenoid production
21. Screen printing
22. Welding (MIG and TIG)
23. Milling
24. Turning
25. Cold drawing (wire and tube)
26. Wire mesh production
27. Laminating
28. Post forming
29. Routing
30. Roto moulding
31. Polishing (mechanical and manual)
32. ERW tube production
33. Motor production
34. Coil winding
35. Chrome plating
36. Zinc plating (electro)
37. Anodising (clear and coloured)
38. Nickel plating
39. Pre-treatments (chromating and phosphating)
40. Painting – electro powder coating and wet finishing
41. Case Hardening
42. Galvanising (hot dip)
43. Rubber mouldings
44. Rubber extrusions

Retail related Manufacturing & Finishing Processes

1. Yarn production (fiber preparation, carding/combing, twisting, spinning)
2. Yarn Spinning
3. Knitting
4. Linking (mechanical and manual)
5. Embroidery (mechanical and manual)
6. Crochet (mechanical and manual)
7. Dipping (aromatherapy, Aloe Vera and vitamin E treatments)
8. Dying
9. Boarding
10. Printing
11. Merchandising
12. X ray checking
13. Laminating
14. Post forming
15. Routing
16. Varnishing
17. Injection moulding
18. Turning
19. Speaker (woofer and tweeter) production
20. Public Address (PA) systems production
